MERIDIAN TERMS AND CONDITIONS

FROM 17 MARCH 2015 (NEW CUSTOMERS) AND
17 APRIL 2015 (EXISTING CUSTOMERS)

1. INTRODUCTION

- 1.1 The terms and conditions in this agreement, together with **our** lists of rates, charges and fees as amended from time to time, govern the relationship between Meridian Energy Limited and **you** relating to **your electricity supply**.
- 1.2 This agreement takes effect between **us** from the time that **you** become a **Meridian** customer unless **we** agree specific terms with **you** on a separate basis.
- 1.3 All previous versions of **our** terms and conditions have been replaced by this agreement.
- 1.4 Terms in bold are defined in clause 24.

2. BECOMING A MERIDIAN CUSTOMER

New Meridian customers

- 2.1 There are a number of ways in which **you** can become a **Meridian** customer. **You** will become a customer in relation to a **premises** if **you**:
 - (a) complete an application form; or
 - (b) complete the online application form on **our** website (www.meridian.co.nz); or
 - (c) apply for **electricity supply** over the phone,and **we** accept **your** application for that **premises**. **We** may accept or decline **your** application at **our** sole discretion and, in making **our** decision, **we** will consider **your** ability to meet **our** payment, credit and other criteria. If **you** do not meet **our** criteria, **we** may decline **your** application or may offer to supply electricity to **you** if **you** agree to any extra terms and conditions that **we** consider necessary.
- 2.2 The information **you** provide to **us** in applying to become a **Meridian** customer must be accurate and not misleading. If the information **you** provide to **us** contains a material error, **you** will be in breach of a material term of this agreement so **we** may, without notice, either change the pricing plan **you** are on to a plan **you** are eligible for (taking into account the revised information) or disconnect **your electricity supply** in accordance with clause 13.7.
- 2.3 If **you** are a new **Meridian** customer, **we** will use the final meter reading provided to **us** by the previous retailer of the **premises** (which may be based on an estimate) as **your** initial meter reading. If **you** are moving into new **premises**, **you** can read the meter before using any electricity and advise **us** of that reading within one **business day** of moving in. If **your** meter reading differs from the previous final meter reading at the **premises**, **we** may arrange for the meter to be read and **we** will use that reading as **your** initial meter reading.
- 2.4 If **our** supply of electricity to **you** has not commenced at the time **you** become a **Meridian** customer, **we** will endeavour to commence supply as soon as possible.

Moving to premises that Meridian supplies

- 2.5 If **you** move into **premises** that **Meridian** supplies and **you** do not arrange for the supply of electricity to **your premises** by another retailer, **you** must contact **us** to apply to become a **Meridian** customer. If **you** do not contact **us**:
 - (a) **we** may disconnect the **electricity supply** to the **premises** after **we** have made a reasonable attempt to contact **you** as the occupier of the **premises**; and
 - (b) whether or not **we** disconnect, **you** must pay for the electricity **you** have used and all applicable fees (which can be found on **our** website (www.meridian.co.nz)), including any disconnection fees, whether **you** have accepted this agreement or not.
- 2.6 If **you** accept this agreement, and if **we** accept **you** as a **Meridian**

customer in relation to the **premises**, **you** will be deemed to have been a **Meridian** customer for that **premises** from the date **you** moved into the **premises** (**you** must provide **us** with any evidence that **we** reasonably request to establish the date that **you** moved into the **premises**).

3. CUSTOMER BONDS

- 3.1 As part of **our** criteria for accepting **you** as a customer under clause 2.1, **we** may require **you** to pay a bond and/or undergo a satisfactory credit check.
- 3.2 **We** may also require **you** to pay a bond during the term of this agreement, including if **you**:
 - (a) have been disconnected and apply for reconnection;
 - (b) have unpaid electricity invoices; or
 - (c) have been repeatedly late paying **your** electricity invoices.
- 3.3 If **we** require **you** to pay a bond, **we** will provide **you** with the reason or reasons why the bond is required. If **you** are a residential customer, the amount of the bond that **you** will have to pay is \$150.00.
- 3.4 **You** must pay the bond to **us** within 5 **business days** following receipt of **our** notice that a bond is required.
- 3.5 **We** will hold the bond in a separate non-interest bearing bond account and use it towards payment of any unpaid fees, charges or final invoice amount or towards payment for damage to **our** property for which **you** are responsible. Any unused portion of the bond will be refunded to **you** if **you** stop being a **Meridian** customer. If **you** are continuing as a **Meridian** customer at another **premises** **we** will transfer the balance of the bond to the account for **your** new **premises**. **We** may also, at **our** discretion, require **you** to top up the bond amount.
- 3.6 If **you** have paid all of **your** invoices in full by the due date and have otherwise complied with this agreement for a period of 12 months after **you** pay **us** a bond, **we** will refund the bond to **you**. If **we** keep the bond for more than 12 months, **we** will provide **you** with reasons for this.
- 3.7 If **we** refund all or part of **your** bond to **you**, **we** can decide how to pay **you**. For example, **we** may pay **you** by direct credit to **your** nominated bank account, or send **you** a cheque.
- 3.8 **We** will not be liable to pay **you** interest on any bond amount.

4. PARTIES INVOLVED IN YOUR ELECTRICITY SUPPLY

- 4.1 There are a number of entities involved in **your electricity supply**, including:
 - (a) **you**;
 - (b) **Meridian**;
 - (c) the **lines company**;
 - (d) **Transpower**; and
 - (e) **our metering services provider**.
- 4.2 **Meridian** does not own or operate the power lines that convey electricity to **you**. These lines are generally owned by **Transpower** and the **lines company** or lines companies in **your** area.

5. LINES COMPANY

Complying with the lines company agreement

- 5.1 To supply **you** with electricity **Meridian** has an agreement with the **lines company** or lines companies in **your** area permitting **Meridian** to use their **network**. **Your** responsibilities to the **lines company** are included in this agreement. Part of **your** responsibility as **our** customer is to abide by those responsibilities.
- 5.2 A **lines company** may have an agreement directly with **you**. In that case, that agreement will replace the parts of this agreement dealing with **your** responsibilities to the **lines company**.
- 5.3 **You** must also comply with:
 - (a) all line function services safety and technical standards provided for under any regulations or **industry standards**;

- (b) the **lines company's** Network Connection Standards, as amended from time to time; and
- (c) all legal requirements relating to **your equipment**, including (if applicable) by ensuring that any alteration is certified by a suitably qualified person. For further information on these obligations, please contact **us** or the **lines company**. A copy of the **lines company's** Network Connection Standards can be found on its website.

6. OUR COMMITMENT TO YOU

- 6.1 **We** will provide **your electricity supply** in a way that complies with all relevant laws (including the Electricity Act 1992, the Electricity Industry Act 2010, the Electricity Industry Participation Code 2010, and the Consumer Guarantees Act 1993), and with **industry standards**.
- 6.2 Any timeframes in this agreement are consistent with the applicable equivalent timeframes specified in any relevant law or **industry standards**.

7. YOUR ELECTRICITY SUPPLY

Fluctuations

- 7.1 **You** acknowledge that **you** recognise that surges or spikes in **your electricity supply** are momentary fluctuations in the voltage or frequency that can happen at any time and are not treated as interruptions to **your electricity supply**. These fluctuations may be large and cause damage even when they comply with the applicable electricity safety regulations. Any momentary fluctuations (large or small) could damage or destroy appliances including sensitive appliances like computers, televisions, DVD players, cordless phones, computerised appliances and fridges and freezers. **We** do not control the quality of electricity that **you** receive and cannot prevent such fluctuations. **We** will not be responsible for any damage that results from such fluctuations unless **we** are found to have breached the Consumer Guarantees Act (after the application of clause 17).

Electricity interruptions

- 7.2 **Your electricity supply** may be interrupted because of planned or unplanned events.
- 7.3 A planned interruption of **your electricity supply** may be made by **us** or the **lines company**:
 - (a) so the **equipment**, electrical lines and **network equipment** connected to **your premises** or another person's premises can be installed, maintained, upgraded, altered, replaced or repaired;
 - (b) for health and safety reasons;
 - (c) to preserve or protect the proper working of the **network**;
 - (d) to ensure the quality and safety of **your electricity supply** or of the **electricity supply** to a third party;
 - (e) to comply with instructions from **Transpower**;
 - (f) to comply with the law, or any **industry standards**; or
 - (g) to comply with instructions from any regulatory authority.
- 7.4 **We** will give **you** at least four **business days'** notice of planned interruptions unless:
 - (a) **you** agree; or
 - (b) the interruption is urgently required and was not reasonably foreseeable, meaning that four **business days'** notice is not possible,
 in which case **we** will give **you** as much notice of the interruption as is possible.
- 7.5 Unplanned interruptions to **your electricity supply** may occur for many reasons and **we** will be unable to give **you** prior warning. Examples of reasons for unplanned interruptions include:
 - (a) where the **network** is affected by a storm, high winds, third party interference (like a car accident), or other events beyond **our** reasonable control; or
 - (b) safety reasons.
- 7.6 **We** are not responsible if **your electricity supply** is interrupted as a result of events beyond **our** reasonable control unless **we**

are found to have breached the Consumer Guarantees Act (after the application of clause 17.1). Following an interruption (whether planned or unplanned), **we** will do everything that **we** reasonably can to return **your electricity supply** to normal as soon as reasonably practicable.

- 7.7 **You** can report, and access information about, a supply interruption (planned or unplanned) by calling **our** Contact Centre on 0800 496 496. This service is available on a 24-hour basis and is free to call from **your** cell phone. **We** will regularly update information about a supply interruption, in accordance with good industry practice in New Zealand.

Your responsibilities

- 7.8 **You** are responsible for:
 - (a) insuring yourself against damage from electricity fluctuations and interruptions;
 - (b) undertaking protective measures such as installing suitable surge protection devices and power conditioners; and
 - (c) arranging for alternative electricity supplies to protect **your equipment** and electrical appliances.
- 7.9 **You** can find more information regarding measures that **you** can take against fluctuations and interruptions (including surges and spikes) in **electricity supply** on **our** website (www.meridian.co.nz). **We** cannot tell **you** what types of surge protection devices or power conditioners may be suitable to **your** circumstances and recommend that **you** seek advice from an electronics retailer or qualified electrician. Note that surge protection devices may not protect **your equipment** and electrical appliances from some surges and spikes that **you** may experience. **We** recommend that **you** insure yourself against damage from electricity surges, spikes, fluctuations and interruptions.

Compensation for losses resulting from a supply interruption

- 7.10 If **we** receive compensation from a third party for losses resulting from the interruption of supply, **we** will pass a portion of that compensation on to **you** if **we** are able to identify that **your** supply was interrupted. **We** will calculate the portion of compensation payable to **you** by having regard to other affected customers and taking into account any administrative costs reasonably incurred by **us**. If **you** ask **us** to, **we** will explain in more detail how **we** determined the amount of compensation paid to **you**.

8. FAULTS AND SAFETY

- 8.1 For safety reasons, faults in **your electricity supply** need to be acted on immediately: call **our** Contact Centre on 0800 496 496 any time. When **you** report a fault, please include anything **you** see or hear that may help pinpoint the cause of the fault.
- 8.2 For **your** safety, please treat all electrical lines or wires, at all times, as live and therefore deadly. If **you** are unsure about the safety of any lines on or near **your premises**, please call **our** Contact Centre on 0800 496 496 or the **lines company** immediately.
- 8.3 To help ensure that the supply of electricity to **you** and others is safe and not interrupted, **you** must:
 - (a) follow any instructions given to **you** by the **lines company** to make sure its electrical lines or **equipment** on **your premises** are safe;
 - (b) repair and maintain **your** electrical lines and **equipment** to make sure they comply with the law;
 - (c) keep **your** electrical lines clear of buildings, ground, trees and vegetation and other obstacles on **your premises** or overhanging **your premises** in accordance with the New Zealand Electrical Code of Practice for Electrical Safe Distances (available from the Energy Safety Service www.energysafety.govt.nz);
 - (d) make sure nothing on **your premises** interferes with or damages the **network**;
 - (e) work out the exact location of any underground electrical line before doing any groundwork, such as digging trenches or driving stakes. Information on the location of underground electrical lines is available from the **lines company**; and

- (f) notify **Meridian** immediately if there is any damage to or fault with any **meters** or **equipment**.

8.4 **You** must not:

- (a) connect or disconnect **your premises** to the **network** — only people authorised by the **lines company** can do this;
- (b) interconnect two or more **network connection points**;
- (c) interfere with or work on the **lines company's** electrical lines and **equipment** on **your premises**;
- (d) allow any mortgage, security interest or other charge of any nature whatsoever to be created over any piece of electrical **equipment** on **your premises** that **we** or the **lines company** own or over a **meter**;
- (e) take a supply of electricity from anywhere along the electrical line between **your network connection point** and the **meter**;
- (f) interfere with any **equipment** on **your premises** that **we** or the **lines company** own or any **meter**; or
- (g) use any appliance that interferes with the safety and operation of any **equipment** or interferes with anyone else's **electricity supply**.

If **you** breach any of the above obligations, **we** may disconnect **your electricity supply** if clause 13.7 applies.

- 8.5 **You** are responsible for making sure that **your** agents, **your** invitees to **your premises**, other people in **your** household, their agents and invitees understand and comply with the requirements of this clause 8. It is also **your** responsibility to let the owner of **your premises** know if he or she has to do anything to meet these requirements or obtain their consent to enable **you** to meet these responsibilities.

Interference

- 8.6 Interference with electricity **meters**, or with lines, connections or **equipment** belonging to, or leased or controlled by, **Meridian** or the **lines company** is a very serious matter, and may result in the involvement of police and legal prosecution.
- 8.7 If interference has meant that **your** electricity usage has not been properly recorded for any period of time, in accordance with clause 6.1:
- (a) **we** will estimate **your** actual electricity usage since the date **you** became a **Meridian** customer, and **you** will have to pay any amount which is owing;
 - (b) **you** may also have to pay:
 - (i) for any costs or losses **we** or the **lines company** incur in investigating the interference; and
 - (ii) for any costs **we** or the **lines company** incur in replacing or repairing any damage to the metering **equipment**; and
 - (iii) a bond (or increased bond); and
 - (c) **we** may also cease, limit, restrict or suspend **your electricity supply**, and/or take legal action against **you**.

9. LOAD MANAGEMENT

- 9.1 Part of **your electricity supply** may be load managed. **Load management** may be undertaken by the **lines company**, by **us** by a third party, or by any combination of these entities.

About load management

- 9.2 **Load management** is the process of reducing electricity demand on the **network** by controlling the supply of electricity to specific appliances (referred to as controlled loads). This normally occurs during peak load periods when the demand for electricity is at its highest, but may occur at other times, for example, following events on **Transpower's** national transmission system or the **network** so as to manage electricity system security.
- 9.3 Examples of appliances suitable for **load management** are hot water storage heaters, spa pool heaters and space heaters.

Load management by the lines company or us

- 9.4 **We** and the **lines company** can use **load management** switches on **your premises** to interrupt **your electricity supply** without giving **you** advance notice if:
- (a) in relation to the **lines company**, **our** agreement with the **lines company** allows the **lines company** to; or

- (b) in relation to **us**, **you** have agreed to a pricing plan that allows **your** electricity to be load managed (in which case **we** will comply with any conditions in that plan).

- 9.5 **Load management** can occur for any legal purpose, including:

- (a) managing the system security of **Transpower's** national transmission system or the **network**;
- (b) reducing the transmission charges charged by **Transpower** to the **lines company**;
- (c) optimising the **lines company's** investment in the **network**;
- (d) managing wholesale electricity purchase cost risks (for example, by shifting the time of **your** consumption); or
- (e) providing interruptible load into the reserves market.

Load management equipment

- 9.6 To ensure that **Meridian** and the **lines company** are able to efficiently manage the supply of electricity to **you**, **you** agree that each of **Meridian** and the **lines company** may have reasonable access to **your premises** to install such **load management equipment** as each considers necessary. See clause 11 for **your** rights and responsibilities relating to **our** and the **lines company's** access to **your premises**.

Load management by third parties

- 9.7 If **you** enter into any agreement or arrangement with any third party in relation to using **load management** switches in, over, on or relating to **your premises** to interrupt **your electricity supply**, **you** must ensure that:

- (a) neither **us** nor the **lines company** is already entitled to use the **load management** switches in, over, on or relating to **your premises** under clause 9.4;
- (b) the third party does not interfere with or damage **our** and the **lines company's load management equipment**, and if such damage occurs **you** must promptly remedy that damage at **your** own cost;
- (c) the third party allows the **lines company** to use **load management** switches in, over, on or relating to **your premises** to interrupt **your electricity supply** to enable it to fulfil its performance obligations as an asset owner under the **lines company agreement**;
- (d) prior to the third party using **load management** switches in, over, on or relating to **your premises** to interrupt **your electricity supply**, it enters into an agreement with the **lines company** regarding protocols for complying with clause 9.7(c).

10. METERING OF ELECTRICITY

- 10.1 **We** will comply with all relevant laws and **industry standards** relating to metering. This clause 10 complies with those laws and standards.

Reading your meter

- 10.2 Except for unmetered supplies, **we** find out how much electricity **you** have used by reading **your meter** (which **we** may do physically or remotely):
- (a) If **you** live in a remote area, **we** will endeavour to read **your meter** at least twice a year.
 - (b) If **you** are a pre-pay customer, **we** will endeavour to read **your meter** at least once a year.
 - (c) For other customers, **we** will endeavour to read **your meter** at least four times a year.

We will let **you** know in writing if **we** are going to change the number of **meter** reads which **we** endeavour to do each year.

- 10.3 While **we** will try to read **your meter** regularly, it is not always possible: **we** may be unable to read **your meter** because of **equipment** breakdowns, weather conditions or problems getting access to **your premises**. If **we** do not read **your meter**:
- (a) **we** will invoice **you** using an estimate of the electricity **you** have used; and
 - (b) when **your meter** is next read, **we** will take this into account in **your** subsequent invoice or invoices.
- 10.4 If **you** read **your meter** yourself, **we** will not be responsible for any injury or loss caused or suffered by **you** in doing so.

Meter accuracy

- 10.5 **You** must pay for all the electricity which **your** electricity meter measures as having been used on **your premises** from the time **you** became (or were deemed by clause 2.6 to become) a **Meridian** customer until **we** stop supplying electricity to **you**. Electricity industry rules set a standard of accuracy for electricity meters. If **you** think **your meter** is not measuring electricity **you** use within the set standard of accuracy **you** can ask **us** to test it. Unless **your meter** has been tested and found to be inaccurate, **we** may assume that the metering information **we** collect is accurate (**your** electricity invoices are based on this information).
- 10.6 If:
- (a) **you** ask **us** to test **your meter** and **we** find that it is not accurate; or
 - (b) **we** decide to test a **meter** and find that it is not accurate, **we** will bear the cost of testing and repairing or replacing the inaccurate **meter**. **We** will then work out what **your** electricity usage should have been, and how much **you** should have paid for **your** electricity. This may result in either a debit or credit to **your** next electricity invoice, depending on whether **you** paid too much or too little.
- 10.7 If the **meter** is found to be accurate and **you** requested that it be tested, then **you** may have to pay for the test and will have to pay for all electricity recorded through that **meter**. **We** will tell **you** about the likely cost of undertaking the test when **you** request it, and before **we** commence testing.

Replacement meters

- 10.8 **We** may, at any time, replace or upgrade the **meter** at **your premises** including by installing a smart **meter**. **We** may charge **you** the cost of replacing or upgrading that **meter** at **your premises** if **you**, **your** agents, **your** invitees, other people in **your** household or their agents or invitees have caused damage to the **meter** or have requested a new **meter**. **We** will inform **you** if **your meter** is to be replaced or upgraded and the costs of that replacement or upgrade.
- 10.9 If a replacement **meter** cannot be installed at **your premises** because the wiring at **your premises** does not comply with any applicable laws, regulations, codes or standards, or because the replacement **meter** would, when installed, represent a safety hazard, **we** may require **you** to fix, remedy, or repair the wiring or safety hazard at **your** cost before a replacement **meter** is installed at **your premises**.
- 10.10 **We** may also require **you** to provide a certificate of compliance from a certified service provider at **your** cost before the replacement **meter** is installed. **We** may request a copy of this certificate at any time.

11. ACCESS TO YOUR PREMISES

- 11.1 Sometimes **our** representatives and representatives of the **lines company** will need access to **your premises**. If **you** breach **your** obligations under this clause 11, **we** may disconnect **your electricity supply** if clause 13.7 applies, and the **lines company** may disconnect **your electricity supply** if clause 13.2 applies.

Access by the lines company

- 11.2 **You** must provide the **lines company** with safe and unobstructed access to **your premises** (including inside any **premises**) for the following purposes:
- (a) to inspect, maintain, upgrade, replace or operate **equipment** in, over or on **your premises** that is owned, leased or controlled by the **lines company**;
 - (b) to install, replace, upgrade, read or maintain **meters**;
 - (c) to disconnect and reconnect **your electricity supply** in accordance with this agreement;
 - (d) to access **our equipment** to verify metering information, including, in the event of termination of the **lines company's agreement** with **us**, to determine any charges outstanding at the time of termination;
 - (e) for the safety and protection of persons or property;
 - (f) to ensure that **you** fulfil **your** obligations under clauses 16.2(d)

and 16.4;

- (g) to enable the **lines company** to gain access to and remove any of its **equipment** following the termination of this agreement and for the period ending six months after the date that termination takes effect; and
- (h) for any other purpose related to the provision of services under the **lines company agreement** or to enable the **lines company** to comply with law.

Access by us

- 11.3 **You** must provide **us** with safe and unobstructed access to **your premises** for the following purposes:
- (a) to connect, suspend or disconnect **your electricity supply**;
 - (b) to install, replace, upgrade, read or maintain **meters**;
 - (c) to ensure that trees, vegetation and other obstacles are clear of any lines or other electrical **equipment** - **we** or the **lines company** may charge **you** for the cost of clearing such trees, vegetation or obstacles if **you** have failed to do so;
 - (d) to install, inspect, operate, work on or remove any **equipment** needed to provide **your electricity supply** or another person's **electricity supply**;
 - (e) to investigate or repair any damage or interference, or suspected damage or interference to or with the **network** or any **equipment** used in relation to **your electricity supply**; and
 - (f) for the safety of persons or property.

Notice of access

- 11.4 Except in routine situations (such as, for example, reading or inspecting a **meter** that is located on the outside of a building) or **emergency situations**, before accessing **your premises** **we** or the **lines company** will provide **you** with written notice of:
- (a) when access is required; and
 - (b) the purpose for which access to **your premises** is required.
- Where **we** require **you** to be home during the period that **we** access **your premises**, **we** will call **you** to set up a time that suits both **you** and **us**. If **we** agree a time with **you** and **you** do not meet that time, **we** may charge **you** a fee.
- 11.5 Unless **we** or the **lines company** agree with **you** otherwise, **we** or the **lines company** will provide **you** with the notice in clause 11.4:
- (a) where **we** or the **lines company** require access to undertake construction, upgrade, repair or maintenance work, at least 10 **business days** before access is required; or
 - (b) otherwise, in a reasonable time before access is required.

Access must be safe and unobstructed

- 11.6 When **we** or the **lines company** visit **your premises**, **you** must do all things necessary to ensure that access to **your premises** is safe and unobstructed and that **our** staff, agents and contractors are not threatened, assaulted or harassed by **you** or any person **you** are responsible for. This includes ensuring that any dog or other animal on **your premises** is kept under control.
- 11.7 If **you** breach clause 11.6 and:
- (a) that breach is not the subject of a dispute under **our** complaint resolution procedure;
 - (b) **we** have taken reasonable steps to encourage and assist **you** to comply with clause 11.6;
 - (c) **we** have given **you** 10 days' written notice to remedy that breach in order to avoid disconnection,
- and **you** do not comply with that clause when **we** next visit **your premises**, **you** will be in breach of a material term of this agreement so **we** may disconnect **your electricity supply** without further notice in accordance with clause 13.7.

Keys and security information

- 11.8 If **your electricity supply equipment** is located behind locked doors or gates, **you** will need to let **us** in or provide **us** with a key

and/or security system code so that **we** can access **your premises**. **We** will:

- (a) securely store all keys and security information that **you** provide to **us**;
- (b) only use the keys and security information for the purpose of exercising **our** rights and fulfilling **our** obligations under this agreement; and
- (c) destroy the keys and the security information promptly after **we** no longer require that key or security information for the purposes of this agreement (unless **we** have agreed to other arrangements with **you**).

If **you** contact **us**, **we** will provide **you** with further information on **our** procedures for secure storage, use and destruction or return of keys and/or security information.

Our access responsibilities

- 11.9 When accessing **your premises**, **our** representatives and representatives of the **lines company** will:
- (a) take reasonable steps to minimise any direct impacts on **your premises** and any inconvenience to **you**;
 - (b) comply with any reasonable requirements that **you** may have (such as, for example, the time of entry, leaving gates as found, driving in a safe manner, taking reasonable steps not to disturb stock, and avoiding access through specified areas);
 - (c) identify themselves to **you** before entering **your premises** (**you** do not have to allow them access to **your premises** unless they show **you** their identification); and
 - (d) act courteously, considerately and professionally at all times.

Health, safety and the Resource Management Act

- 11.10 **You** must bring to the attention of **our** or the **lines company's** representative visiting **your premises** any health and safety and/or Resource Management Act requirements or issues that could be relevant and, if **your premises** are business **premises**, provide any necessary health and safety equipment to ensure the safety of the representative on **your premises**.

12. RATES, FEES AND CHARGES

- 12.1 **We** will charge **you our** rates, fees and charges in accordance with **your** agreed **Meridian** pricing plan and the **Meridian** service fees schedule for **your electricity supply** from the time **you** became (or were deemed by clause 2.6 to become) a **Meridian** customer until **we** stop supplying electricity to **you**. **We** will also charge **you** for any other amount provided for under this agreement or otherwise agreed with **you** from time to time.
- 12.2 If **we** think that circumstances have arisen, or are likely to arise, where **you** may incur a fee, **we** will give **you** reasonable notice of the circumstances before **you** incur the fee, and explain how **you** can avoid incurring the fee.
- 12.3 If **you** request an additional product or service under this agreement that will result in **you** incurring an additional cost, **we** will advise **you** of the additional cost at the time of **your** request (or provide **you** with an estimate of the additional cost if the exact amount is not known to **us** at that time).
- 12.4 If **you** contact **us**, **we** can provide a copy of **your** pricing plan (which may be the standard plan for **your** area) and **our** service fees schedule.

Changes to rates, fees and charges

- 12.5 **We** will usually determine which rates **you** are eligible for based on **your meter** configuration. If **you** stop being eligible for the rate **you** are on because **you** no longer meet **our** criteria for that rate, **we** may require **you** to change to an alternative rate and if **we** do **we** will give **you** 30 days' notice in writing in advance unless clause 2.2 applies.
- 12.6 **We** may change the rates, fees and charges that **we** charge **you**, as well as the level of any prompt payment discount. **We** will give **you** 30 days' notice in advance of any increase in **our** rates, fees or charges or any decrease in **our** prompt payment discount, together with **our** reasons for that increase or decrease. If **our**

rates, fees or charges are increasing, or **our** prompt payment discount is decreasing, by more than 5% (and, in the case of a fee or charge, the increase is reasonably likely to have a material effect on consumers) then **we** will give **you** an individual notice of that increase or decrease by mail or email as soon as possible. If **our** rates, fees or charges are increasing, or **our** prompt payment discount is decreasing, by less than 5% (or, in the case of a fee or charge, the increase is not reasonably likely to have a material effect on consumers) then **we** will give **you** notice of that increase or decrease by any of the following methods:

- (a) advertising in **your** local daily newspaper;
- (b) posting a notice on **our** website (www.meridian.co.nz);
- (c) providing written notice to **you** in a letter or email;
- (d) notifying **you** by other electronic means;
- (e) including a statement on **your** invoice; or
- (f) a combination of the above.

- 12.7 Where **we** have agreed with **you** that non-standard rates will apply to **you** for a fixed period, at any time after the end of that period **we** may, at **our** discretion, either continue to offer those or other non-standard rates, or move **you** onto the relevant rates on the current **Meridian** pricing plan for **your** area.
- 12.8 If **you** want to change **your** pricing plan, products or services to another pricing plan, product or service, then:
- (a) please contact **us** to discuss what change **you** would like **us** to make; and
 - (b) subject only to reasonable restrictions applying to the pricing plan, product or service, or an event outside **our** control occurring which delays the changing of **your** pricing plan, product or service, **we** will make the change; and
 - (c) if **you** are a residential customer, **we** will make the change within 10 **business days**. If **you** are not a residential customer, **we** will make the change within a reasonable timeframe agreed with **you**.

See www.meridian.co.nz for a list of fees and charges that may apply and the circumstances in which they may apply.

Prompt payment discount

- 12.9 If **you** are entitled to a prompt payment discount it will be shown on **your** invoice. A prompt payment discount will only be available if **we** receive full payment of the specified amount shown on **your** invoice from **you** by the due date shown on **your** invoice.

Dishonoured payments

- 12.10 If any payment made by **you** is dishonoured by **your** bank, **we** may charge **you** a dishonour fee and may reverse any prompt payment discount that applied to that payment.

Errors and refunds

- 12.11 Except where **we** have estimated the amount of electricity **you** have used (in which case **your** invoices will be adjusted when **we** read **your meter**), if **we** make an error in an electricity invoice and charge **you** an incorrect amount, **you** will either:
- (a) be entitled to a prompt refund of the amount overcharged; or
 - (b) **you** will have to pay the undercharged amount to **us**, to the extent reasonable taking into account whether **we** or **you** have contributed to the error, or could reasonably have been expected to know of the error.
- 12.12 If **you** are entitled to any refunds or payments from **us**, for whatever reason (including any profits that **you** are entitled to receive from a **lines company** that the **lines company** has paid to **us**, or any payments made under a customer compensation scheme during a public conservation campaign under the Electricity Industry Participation Code 2010), **we** can decide how these will be paid. For example, **we** may:
- (a) credit them against **your** next electricity invoice;
 - (b) use the money to help pay any debts **you** may owe to **us**;
 - (c) pay **you** by direct credit to **your** nominated bank account; or
 - (d) send **you** a cheque.
- 12.13 If the reason **you** are entitled to a refund is because **you** have been

over-paying **your** account (for example, by automatic payment) then **we** will credit the refund against **your** next electricity invoice unless exceptional circumstances apply.

Unmetered supply

- 12.14 If **we** supply **you** with unmetered electricity including, for example, for private street lighting, **you** must pay for it in accordance with **our** unmetered supply rates.

Your monthly Meridian account

- 12.15 Unless **we** have agreed with **you** otherwise, every month **we** will send **you** an invoice for the **electricity supply to your premises** and **our** other services together with **our** applicable fees and charges. The invoice will enable **you** to check the invoiced amount(s), including:

- (a) the quantity of electricity supplied (based on an actual reading or estimate of the amount of electricity supplied);
- (b) any relevant fees and charges;
- (c) other products and services;
- (d) the identifier number or numbers of **your premises** (known as the ICP number) and the name of the main **lines company** in **your** area;
- (e) the total amount that **you** must pay **us** based on the above; and
- (f) the due date for payment.

You must pay the total amount in full by the due date, even if **we** have estimated the amount of electricity **you** have used. **You** cannot deduct anything or set off part of the cost.

- 12.16 If **you** are having any difficulties in paying **your** account, **you** may contact **us** to discuss possible payment options.

Paying your invoice

- 12.17 If **you** would like to learn about the different options available for paying **your** invoice, and an explanation of how these options operate, please visit **our** website (www.meridian.co.nz).
- 12.18 If any of **our** currently offered alternative payment options are subject to change, **we** will give **you** reasonable notice and adequate information to explain the changes no less than 30 days before the change takes effect.
- 12.19 If **we** do not offer a pre-payment option, and if **you** ask **us** for any information about other electricity providers that do offer a pre-payment option, **we** will provide **you** with any such information that **we** possess at the time of **your** request.

Estimated invoices

- 12.20 If **we** send **you** an invoice based on an estimate of the amount of electricity **you** have used:
- (a) the invoice will clearly state that an estimate has been used;
 - (b) if **you** ask **us**, **we** will provide **you** with a simple explanation of how estimates are calculated; and
 - (c) **you** may provide **us** with a valid **meter** reading of **your** own and, if **you** do and it was taken and provided to **us** within seven days of the date of the invoice, **we** will amend the estimated invoice. However, **we** reserve the right to:
 - (i) undertake and charge **you** for an actual reading if the reading **you** give **us** is not consistent with **our** records; and
 - (ii) adjust **your** account if **your** reading is later found to be inaccurate.

Late invoices

- 12.21 **You** must notify **us** within a reasonable period of time if **you** have not received **your** invoice by the date on which **you** would usually expect to receive it, unless **we** have notified **you** of a delay in issuing that invoice.
- 12.22 If **you** receive an invoice that is late and **you** are not responsible for its lateness:
- (a) if the invoice is more than two months after the end of the period to which it relates, by arrangement **you** will have at least the length of time covered by that invoice to pay it (please

contact **us** if **you** wish to make this arrangement); and
(b) if the invoice is more than three months late, **we** will negotiate an appropriate discount with **you**.

- 12.23 **You** will not be required to pay interest on any incorrect or late invoices, and neither will **we**.

Responsibility for paying invoices

- 12.24 If **you** live with other adults and do not want to be solely responsible for meeting the obligations under this agreement, **you** should ensure that each of those adults is a **Meridian** customer and that **you** are all jointly responsible under this agreement. This would require each of **you** to contact **us** as soon as one of **you** becomes a **Meridian** customer to advise **us** of **your** joint responsibility under this agreement.
- 12.25 Even if more than one person has asked **us** to supply electricity to **your premises** and **you** are all jointly responsible under this agreement, **you** are jointly and individually liable to pay each invoice. This means that **you** must pay the entire invoice if someone else has not paid their share.

13. DISCONNECTION OF YOUR ELECTRICITY SUPPLY BY US OR THE LINES COMPANY

Fees and charges

- 13.1 **You** may incur fees or charges in relation to actions that **you** or **we** take in relation to suspending, disconnecting, terminating or reconnecting **your electricity supply**. Please see **our** website (www.meridian.co.nz) for a list of fees and charges that may apply, and the circumstances in which they may apply.

Disconnection of electricity supply by the lines company

- 13.2 The **lines company** has the right to disconnect **your electricity supply** in the following circumstances:
- (a) it is necessary to avoid endangering persons or property;
 - (b) there has been an occurrence, or there are circumstances, that may adversely affect the proper working of the **network** or the transmission system;
 - (c) the **lines company** has planned maintenance activities to complete;
 - (d) an “event of default” or an “insolvency event” under the **lines company agreement** occurs in relation to **us** (as those terms are defined in that agreement);
 - (e) **we** do not have a valid **lines company agreement** in relation to **your premises**, or that agreement has expired or been terminated or is about to expire or be terminated;
 - (f) **you** do not give the **lines company** access to **your premises** in accordance with clause 11 (where that failure to give access is material or persistent):
 - (i) in the case of clauses 11.2(a), (b), (d), (g) and (h), after **we** or the **lines company** have given **you** 10 **business days’** notice of access being required; or
 - (ii) in the case of clauses 11.2(c), (e) or (f), immediately; or
 - (g) **you** do not comply with clauses 5.3, 16.2 or 16.4 and that non-compliance is material or persistent.

In these circumstances, the **lines company** will disconnect **your electricity supply**, and not **Meridian**. This means that, if **you** need to arrange reconnection, **you** will need to do so with the **lines company** rather than **us**. If **we** receive a disconnection notice from the **lines company** in relation to **your premises**, **we** will give that notice to **you**.

Disconnection of electricity supply by Meridian

- 13.3 Except in the case of requested, agreed or emergency disconnections, if **we** want to disconnect **your electricity supply** because **you** have not paid an amount owing to **us** in relation to or associated with **your electricity supply** or **network** services provided by the **lines company** by the due date shown on **your** invoice:

- (a) **we** will send **you** a disconnection notice by mail or email (at **your** cost), giving **you** notice that **we** may disconnect **your electricity supply** between seven and 14 **business days** from the date of the notice unless **you** pay **your** account in full (but **we** need not give **you** notice if **you** have agreed a payment arrangement with **us** and **you** default on that arrangement within a short period of time);
- (b) **we** will also give **you** a final warning (at **your** cost) at least 24 hours before **your electricity supply** will be disconnected;
- (c) each notice will set out the timeframe within which **we** may disconnect **your electricity supply**, and explain how **you** can prevent disconnection from occurring;
- (d) after that, if **you** have still not paid the amount owing to **us**, **we** may disconnect the **electricity supply** to the **premises** to which the unpaid amount relates and to any other premises at which **we** supply **you** with electricity (at **your** cost) without further notice.

We will only disconnect **your electricity supply** on a **business day** that is not a Friday or the day before a public holiday.

- 13.4 To avoid having **your electricity supply** disconnected, **you** must pay **your** account in full. If **you** are a **medically dependent customer** or a **vulnerable customer**, and **you** are unable to meet **your** electricity payments, **we** will comply with the **Electricity Authority's** guidelines relevant to **you** in terms of assistance and disconnection.
- 13.5 If **you** tell **us** that **you** are happy for **us** to do so on **your** behalf, **we** will consult with Work and Income New Zealand, District Health Boards, private health practitioners or any other social agency, budget advisor or service provider if:
 - (a) **you** do not pay **your** invoices and **your** supply is at risk of disconnection; and
 - (b) **we** have provided **you** with all the assistance **we** are reasonably able to; and
 - (c) **you** are still unable to make **your** payments.

If **you** have nominated a person with whom **we** can discuss the details of **your** account, **we** will also discuss financial assistance with that person if **you** tell **us** that **you** are happy for **us** to do so.
- 13.6 **We** will not disconnect **your electricity supply** under clause 13.3 if the reason for disconnection is that:
 - (a) **you** have not paid an amount owing to **us** and **you** are disputing all of that amount on genuine grounds under **our** complaint procedure; or
 - (b) **you** have not paid an amount owing to **us** that is based on an estimated **meter** reading, unless **we** reasonably believe that it is fair and reasonable in the circumstances to do so.
- 13.7 **We** may also disconnect **your electricity supply** without notice if:
 - (a) **you** breach a material term of this agreement (other than non-payment of an invoice), or **you** breach any term of this agreement persistently; and
 - (b) that breach is not the subject of a dispute under **our** complaint resolution procedure; and
 - (c) if that breach is capable of being remedied:
 - (i) **we** have written to **you** to notify **you** of the breach and of the need to remedy it in order to avoid disconnection; and
 - (ii) **you** have not remedied the breach 10 days after receiving written notice of the breach from **us**.
- 13.8 The terms of this agreement that are material terms for the purposes of clause 13.7 include clause 2.2, clause 11.6 (provided **we** have complied with clause 11.7) and any other term which is material in the circumstances.

14. SUSPENSION, DISCONNECTION OR TERMINATION OF YOUR ELECTRICITY SUPPLY BY YOU

Suspension of electricity supply at your request

- 14.1 If **you** want **your electricity supply** temporarily suspended, **you** must give **us** at least three **business days'** notice. **You** will have to pay the cost of suspending and reconnecting **your electricity supply**.

Moving house

- 14.2 If **you** are moving **premises**:
 - (a) **you** must give **us** at least three **business days'** notice. **You** can apply to be supplied by **us** at **your** new **premises** at the same time and this agreement will apply (and **you** agree that **we** may add any unpaid bills **you** have with **us** from any other property to **your** bills for electricity used at **your** new **premises**);
 - (b) **we** will need to obtain a final **meter** reading from one of the following methods:
 - (i) taking a final **meter** reading at **your** old **premises** (a charge applies); or
 - (ii) if **we** have read the **meter** at **your** old **premises** within the last 60 days, by **you** providing a final reading over the phone or on **our** website (www.meridian.co.nz).
- 14.3 If **you** provide **us** with the final **meter** reading and **we** determine that it is incorrect, **we** may carry out a final **meter** reading (at **your** cost). If this is the case **we** will contact **you** using the contact details **you** have given **us** to adjust **your** final invoice.
- 14.4 If **you** leave **your premises** (eg if **you** move from a flat but **your** flatmates are staying on) and **your** name is on the electricity account, it is important that **you** tell **us** that **you** are terminating **your** account with **us**, and if necessary make arrangements to transfer it to someone else. If **you** wish to transfer **your** account to someone else, **we** will need to speak to that person(s) and accept them as **our** customer before the account can be transferred.
- 14.5 If **you** do not give **us** notice that **you** are moving **premises**, **you** will have to keep paying electricity invoices for those **premises** until the earliest date that:
 - (a) the **electricity supply** is disconnected at those **premises**;
 - (b) another person or persons become solely liable for the **electricity supply** to the **premises**; or
 - (c) **we** become aware (by any means) that **you** have moved **premises**.

Switching to another retailer

- 14.6 If **you** want to switch to another retailer, **your** new retailer will contact **us** to arrange the changeover. **We** will help **you** and **your** new retailer switch **your** account over to them and will comply with any relevant laws and **industry standards**.
- 14.7 **We** may specify the date on which **your electricity supply** will switch to **your** new retailer which can be up to 10 **business days** after **we** have been notified of the switch by **your** new retailer (or any shorter time period required by any law or **industry standard**).
- 14.8 **We** will send **you** a final invoice to cover all electricity **you** have used until the new retailer becomes responsible for **your electricity supply**. The final invoice **you** receive may be based on an estimated read or **you** may provide **us** with a **meter** reading of **your** own (however **we** reserve the right not to accept **your** reading if it appears to be inconsistent with **our** records). **We** may also require that **we** read **your meter** (which may be at **your** cost).
- 14.9 Following the switch, if the new retailer's subsequent **meter** reads show that **our** final estimated invoice was inaccurate, **we** may revise that invoice and ask **you** to pay the difference or refund the difference to **you**.

Permanent disconnection (decommissioning) at your request

- 14.10 If **you** want **your electricity supply** permanently disconnected (for example, if **you** are demolishing **your** house or are otherwise certain that **you** will never require an **electricity supply** to **your premises** in the future):

- (a) **we** will stop **your electricity supply** as soon as reasonably practicable after **we** receive **your** notice of termination;
- (b) **we** or the **lines company** will remove all lines and **equipment** belonging to, or owned or controlled by, **us** or the **lines company** from **your premises** and may charge **you** for doing so. **You** must provide **us** and/or the **lines company** with the necessary access to remove the lines and **equipment**; and
- (c) prior to removing the lines and **equipment** from **your** premises, **we** may also require access to **your** premises to do a final reading of the **meter** (at **your** cost). Once the lines and **equipment** have been removed, **we** will send **you** a final invoice.

Termination of this agreement

14.11 If:

- (a) **your electricity supply** has been disconnected; or
- (b) **you** have switched to another retailer; or
- (c) **you** have moved **premises** and are not receiving an **electricity supply** from **us** at **your** new premises or at any other premises,

our obligations to **you**, and **your** obligations to **us**, in relation to **your electricity supply** end (other than those obligations specified in clause 20.10). In particular, **you** must still pay **us** for amounts **you** owe **us** under this agreement.

15. RECONNECTION OF ELECTRICITY SUPPLY

15.1 Before **we** reconnect **your electricity supply**, **we** may require one or more of the following from **you**:

- (a) payment of:
 - (i) any outstanding monies owed to **us**, including any disconnection fees;
 - (ii) any fees or charges for services that accrue while **your electricity supply** is disconnected;
 - (iii) a reconnection fee;
 - (iv) a bond or other security payment;
- (b) agreement on an alternative payment arrangement, or any other reasonable terms and conditions;
- (c) provision, to **our** satisfaction, of ongoing access to **your** property to fulfil **our** obligations under this agreement;
- (d) responsibility for making sure all appliances at **your premises** are switched off at the time of reconnection;
- (e) presence at the time of reconnection; and/or
- (f) if **your premises** has not had an **electricity supply** for more than six months, before **we** reconnect **your electricity supply**, **you** will need to provide **us** with a certificate of compliance or a certificate of verification, at **our** election, from a registered electrical inspector (this is a legal requirement and a requirement of the **lines company** and is to ensure that it is safe to reconnect the supply of electricity, and that the necessary electrical **equipment** is still up to standard).

15.2 If another person living at **your premises** has an unpaid invoice with **us**, **we** may refuse to supply electricity to those **premises** until the invoice has been paid.

15.3 Once **you** have satisfied **our** reasonable requirements for reconnection, **we** will restore **your** connection as soon as reasonably practicable. **We** may restore **your** connection remotely. **We** reserve the right to charge **you** for failed attempts to reconnect **your electricity supply** where the failure has occurred because of **your** act or omission, these attempts have been carried out in good faith and **we** have incurred costs.

15.4 Sometimes lines companies will charge for periods of disconnection which are shorter than a year (for example, if **you** are disconnected and then have **your** electricity switched back on six months later). In these circumstances, **we** may pass this charge onto **you** (along with **our** disconnection and reconnection fees).

15.5 **You** will be responsible for any liability suffered or incurred by **you** as a result of **us** reconnecting **your electricity supply**.

16. RESPONSIBILITY FOR ELECTRICAL LINES AND EQUIPMENT

The lines company's responsibilities

16.1 The **lines company** is responsible for most of the electrical lines and **equipment** in **your** area which are not on **your premises**, but may also own, lease or control lines and **equipment** on **your premises**. The **lines company's** particular responsibilities are operating and maintaining:

- (a) the **network** up to **your network connection point**; and
- (b) the **lines company's** transformers and **equipment** on **your premises**.

You acknowledge the **network**, including any part of the **network** situated on **your premises**, is and will remain the sole property of the **lines company** and no provision of this agreement nor the provision of any services by the **lines company** in relation to the **network** confers on **you** or any other person a property right or other interest in or to any part of the **network** or any **equipment** owned, leased or controlled by the **lines company** which is used to provide any such services.

Your responsibilities

16.2 **You** are responsible for the things that **you** do and things that **your** agents, **your** invitees, other people in **your** household and their agents and invitees do on **your premises**. **Your** particular responsibilities include:

- (a) using a suitably qualified person to ensure the security and maintenance of the electric line and all electricity past **your network connection point** on **your premises** (including within **your** home) except if and to the extent that the **lines company** is required by law to provide and maintain those lines, or agrees to maintain those lines;
- (b) telling **us** if **you** think that any **meters** on **your premises** do not accurately record the electricity supplied to **your premises**;
- (c) during the term of this agreement and until the end of the period ending six months after the termination of this agreement:
 - (i) taking all reasonable precautions necessary to protect; and
 - (ii) except to the extent that emergency action has to be taken to protect the health and safety of persons or to prevent damage to property or with the prior written consent of the relevant owner, not interfering or damaging and ensuring that **your** agents, **your** invitees, other people in **your** household and their agents and invitees do not interfere with or damage,

any **meters**, fittings, the **network** and any other **equipment** owned, leased or controlled by **you**, the **lines company** or **us**;

- (d) not, without the prior written agreement of the **lines company**, conveying or receiving, or attempting to convey or receive, any signal or other form of communication or any other thing (other than energy in accordance with the **lines company agreement** and load control signals transmitted by or with the written consent of the **lines company**) over the **network**, nor cause or permit any other person to do so;

- (e) subject to any written agreement between **you** and **us**, or between **you** and the **lines company**, and any statutory provision, complying with the Electricity (Hazards from Trees) Regulations 2003 in respect of any trees that **you** have an interest in that are near **Transpower's** national transmission system or any line that forms part of the **network** (these regulations are available from the Energy Safety Service (www.energysafety.govt.nz));

- (f) providing and maintaining, at no cost to **us** or the **lines company**, suitable space for the secure housing of:

- (i) any **equipment** owned, leased or controlled by the **lines company** relating primarily to the connection to the **network** of **network connection points** at **your premises** that the **lines company** considers necessary; and
- (ii) any metering **equipment** and associated wiring that **we** consider necessary;

- (g) maintaining and ensuring the security of **your** own meter box, meter board and all other wiring, **equipment** and electrical appliances on **your premises**; and
- (h) advising **us** in advance if **you** expect **your** electricity use to change significantly.

If **you** persistently breach any of the above obligations, **we** may disconnect **your electricity supply** if clause 13.7 applies.
