

# HARAPAKI WIND FARM INVESTMENT DECISION

# Today's announcement

- Meridian has committed to the construction of the Harapaki wind farm
- Highly attractive levelised cost of energy, well below the operating costs of aging thermal plant
- Strategic location above the transmission constraint south of Wairakei
- New renewables support decarbonisation and the energy system's transition through plant retirement and repowering

Harapaki translates to 'escarpment', reflecting the dramatic limestone escarpments that surround the area

# Project overview

- Located within the Hastings District, approximately 50km drive from Port Napier
- Extending over 9km of the Maungaharuru Range, covering 1,235 hectares
- Elevation ranges from 730m at the State Highway 5 entrance, up to 1,100m at the highest points
- Transpower's 220kV Whirinaki to Wairakei circuit passes across the corner of the site
- Meridian project delivery (not EPC)

# Key suppliers

Supply, installation and maintenance of 41 x 4.3MW direct drive wind turbines

Construction of all roads, turbine foundations and crane hardstands

Supply, installation and commissioning of substation and 220kV grid connection

Electrical services for substation, cable jointing and 33kV switchgear installation

Supply, install and commissioning of 220/33kV transformers

Supply of 33kV reticulation cable
