

meridian

Powering today, protecting tomorrow

May highlights

In the month to 8 June 2017, national hydro storage decreased from 90% to 74% of historical average

South Island storage sat at 62% of average and North Island storage at 159% of average on 8 June 2017

Meridian's May 2017 monthly total inflows were 61% of historical average

Meridian's Waitaki catchment storage at the end of May 2017 was 75% of historical average

A similar level of below average storage in the Waitaki was last experienced in late April 2015

Autumn inflows (March to May 2017) into Meridian's Waiau catchment were the lowest on record and storage there remains low

In June 2017, Meridian began accessing cover under the swaption contract with Genesis

National electricity demand in May 2017 was 5.1% higher than the same month last year

May 2017 saw cool and dry conditions across much of the South Island, while the central North Island recorded rainfall well above average

Meridian's retail sales volumes in May 2017 increased by 3.3% compared to May 2016

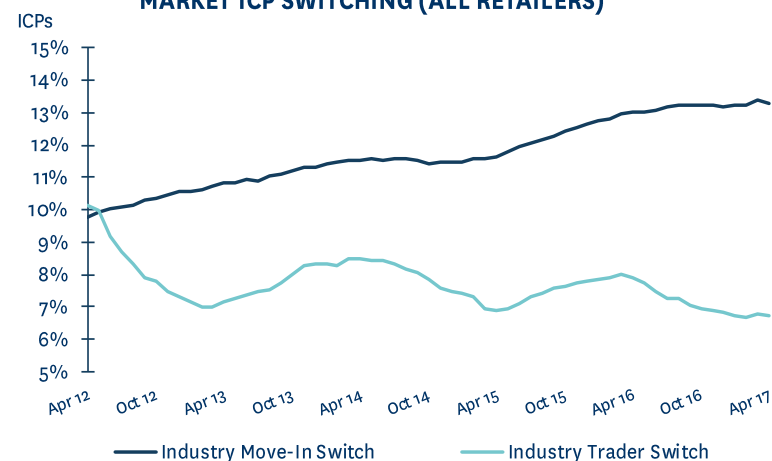

Market data

- National electricity demand¹ in May 2017 was 5.1% higher than the same month last year
- May 2017 saw cool and dry conditions across much of the South Island, while the central North Island recorded rainfall well above average
- Demand in the last 12 months was 1.0% lower than the preceding 12 months
- New Zealand Aluminium Smelter's average load during May 2017 was at the 572MW base quantity of the NZAS agreement
- 12-month average switching rate of customers changing retailers but not moving ("trader" switch) was 6.7% at the end of April 2017
- 12-month average switching rate of customers moving and changing retailers ("move in" switch) was 13.3% at the end of April 2017

NATIONAL DEMAND

MARKET ICP SWITCHING (ALL RETAILERS)

Market data

OTAHUHU ASX FUTURES SETTLEMENT PRICE

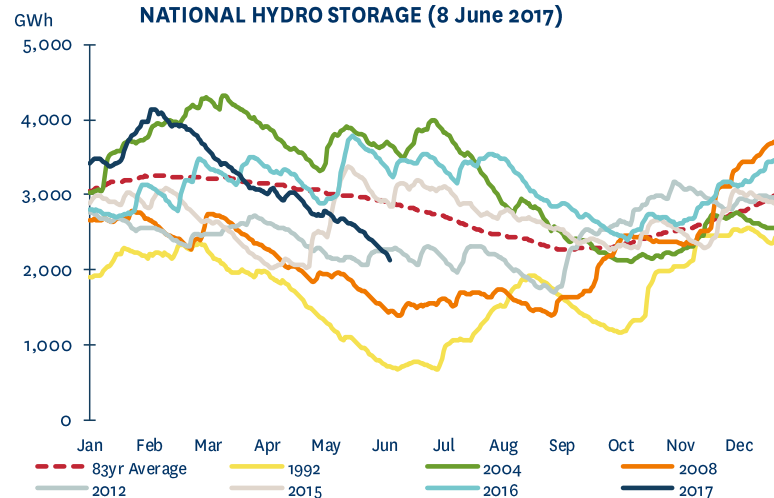

BENMORE ASX FUTURES SETTLEMENT PRICE

- May and early June 2017 saw a noticeable increase in near-term ASX prices
- National storage decreased from 90% of the 83 year average on 9 May 2017 to 74% of average on 8 June 2017
- South Island storage decreased to 62% of historical average on 8 June 2017. North Island storage decreased to 159% of average

NATIONAL HYDRO STORAGE (8 June 2017)

Meridian operating information

- May 2017 monthly inflows were 61% of historical average
- To date this financial year, inflows are 89% of historical average
- Meridian's Waitaki catchment storage moved from 1,561GWh to 1,269GWh during May 2017
- Waitaki storage at the end of May 2017 was 75% of historical average
- A similar level of below average storage in the Waitaki was last experienced in late April 2015
- Autumn inflows (March to May 2017) into Meridian's Waiau catchment were the lowest on record and storage there remains low
- In June 2017, Meridian began accessing cover under the swaption contract with Genesis

Meridian operating information

- Meridian's New Zealand generation in May 2017 was 19.0% lower than the same month last year, reflecting lower hydro generation and lower wind generation
- To date this financial year, Meridian's New Zealand generation is 1.3% lower than the same period last year, reflecting lower hydro generation and lower wind generation
- The average price Meridian received for its generation in May 2017 was 34.3% higher than the same month last year
- The average price Meridian paid to supply contracted sales in May 2017 was 30.4% higher than the same month last year
- To date this financial year, the average price Meridian has received for its generation is 19.6% lower than the same period last year

MERIDIAN'S NEW ZEALAND GENERATION

MERIDIAN'S AVERAGE GENERATION PRICE*

Meridian operating information

- Meridian's New Zealand customer connection numbers fell 0.1% during May 2017
- Retail sales volumes in May 2017 increased by 3.3% compared to May 2016
- Compared to May 2016, residential/SMB sales volumes decreased by 3.5% (late irrigation season load last year offsetting growth this year in residential and SMB volumes) and corporate sales volumes increased by 15.4%
- Despite a 0.4% increase in customer connection numbers since June 2016, Meridian's retail sales volumes in the current financial year are 5.0% lower than the same period last year
- This reflects a 2.0% irrigation driven decrease in residential/SMB sales volumes and a 10.2% decrease in corporate sales volumes

Glossary

Acquired generation volumes	buy-side electricity derivatives excluding the buy-side of virtual asset swaps
Average generation price	the volume weighted average price received for Meridian's physical generation
Average retail contracted sales price	volume weighted average electricity price received from retail customers, less distribution costs
Average wholesale contracted sales price	volume weighted average electricity price received from wholesale customers, including NZAS
Combined catchment inflows	combined water inflows into Meridian's Waitaki and Waiau hydro storage lakes
Cost of acquired generation	volume weighted average price Meridian pays for derivatives acquired to supplement generation
Cost to supply contracted sales	volume weighted average price Meridian pays to supply contracted customer sales
Contracts for Difference (CFDs)	an agreement between parties to pay the difference between the wholesale electricity price and an agreed fixed price for a specified volume of electricity. CFDs do not result in the physical supply of electricity
Customer connections (NZ)	number of installation control points, excluding vacants
FRMP	financially responsible market participant
GWh	gigawatt hour. Enough electricity for 125 average New Zealand households for one year
Historic average inflows	the historic average combined water inflows into Meridian's Waitaki and Waiau hydro storage lakes over the last 81 years
Historic average storage	the historic average level of storage in Meridian's Waitaki catchment since 1979
HVDC	high voltage direct current link between the North and South Islands of New Zealand
ICP	New Zealand installation control points, excluding vacants
ICP switching	the number of installation control points changing retailer supplier in New Zealand, recorded in the month the switch was initiated
MWh	megawatt hour. Enough electricity for one average New Zealand household for 46 days
National demand	Electricity Authority's reconciled grid demand www.emi.ea.govt.nz
NZAS	New Zealand Aluminium Smelters Limited
Retail sales volumes	contract sales volumes to retail customers, including both non half hourly and half hourly metered customers
Sell side derivatives	sell-side electricity derivatives excluding the sell-side of virtual asset swaps
Virtual Asset Swaps (VAS)	CFDs Meridian has with Genesis Energy and Mercury. They do not result in the physical supply of electricity
