

Monthly Operating Report March 2021

March highlights

In the month to 13 April 2021, national hydro storage decreased from **70%** to **59%** of historical average

South Island storage decreased to 59% of average and North Island storage decreased to 57% of average by 13 April 2021

Meridian's March 2021 monthly total inflows were 69% of historical average

Meridian's Waitaki catchment water storage at the end of March 2021 was **58%** of historical average

Water storage in Meridian's Waiau catchment was **below** average at the end of March 2021 National electricity demand in March 2021 was 2.1% higher than the same month last year

March 2021 saw above average temperatures and lower than average rainfall across much of New Zealand. Soil moisture levels in eastern parts of the country are below average

Meridian made calls under the Genesis swaption in March and April 2021

Outages have been confirmed out to December 2021 on the Roxburgh-Livingstone line as part of the Clutha Upper Waitaki Lines Project

New Zealand Aluminium Smelter's average load during March 2021 was **569MW**

Meridian's New Zealand retail sales volumes in March 2021 were **15.4%** higher than March 2020

Compared to March 2020, segment sales increased in: SME +26.8%, agricultural +10.9%, corporate +23.9%. Sales were lower in residential -2.7% and large business -1.6%

March 2021 capex included the first payment to Siemens Gamesa under the Harapaki wind farm contract

Q3 highlights

Meridian's Q3 total inflows were **70%** of historical average and **31%** lower than Q3 last year

Meridian's Waitaki catchment water storage at the end of Q3 was 82% lower than Q3 last year

Compared to Q3 last year, Meridian's New Zealand generation was 16.5% lower at a 266.0% higher average price

During Q3, NZ futures prices lifted significantly across all future quarters

New Zealand Aluminium Smelter's average load during Q3 was **565MW** compared with **590MW** in Q3 last year National electricity demand in Q3 was 2.2% lower than Q3 last year

At the end of Q3, Meridian's New Zealand customer numbers were **5.7%** higher than the same time last year

Compared to Q3 last year, Meridian's NZ retail sales volumes were 8.2% higher at a 0.1% lower average price

All segments showed increased sales, except agricultural, which decreased 3.7%

Compared to Q3 last year, Meridian's Australian wind generation was **10.5%** lower at a **91.7%** lower average price Hume water storage finished Q3 with more than 200% more storage than Q3 last year

At the end of Q3, Meridian's Australian electricity customer numbers were **5.7%** higher the same time last year

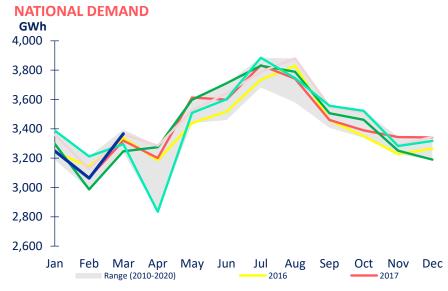

Compared to Q3 last year, Meridian's Australian retail sales volumes were 8.8% higher at an 8.7% lower average price

Compared to Q3 last year, Meridian Group Operating costs were **1.0%** lower and Stay in Business Capital Expenditure was **2.9%** lower

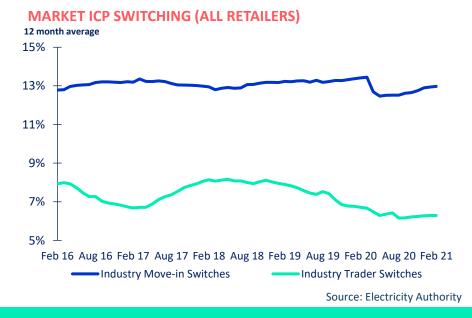

Market data

- National electricity demand in March 2021 was 2.1% higher than the same month last year
- March 2021 saw above average temperatures and lower than average rainfall across much of New Zealand. Soil moisture levels in eastern parts of the country are below average
- Demand in the last 12 months was 1.9% lower than the preceding 12 months
- New Zealand Aluminium Smelter's average load during March 2021 was 569MW
- 12-month average switching rate of customers changing retailers but not moving ("trader" switch) was 6.3% at the end of February 2021
- 12-month average switching rate of customers moving and changing retailers ("move-in" switch) was 13.0% at the end of February 2021

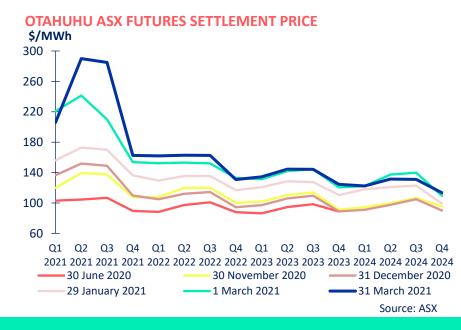

Source: Electricity Authority (reconciled demand)

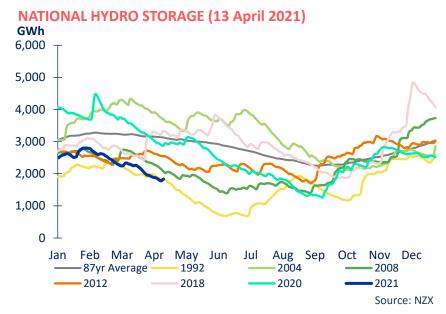

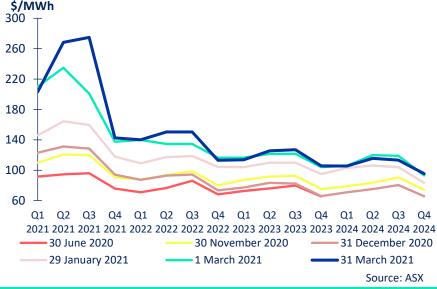

Market data

- March 2021 saw increases in ASX prices
- National storage decreased from 70% of average on 16 March 2021 to 59% of average on 13 April 2021
- South Island storage decreased to 59% of historical average by 13 April 2021. North Island storage decreased to 57% of average

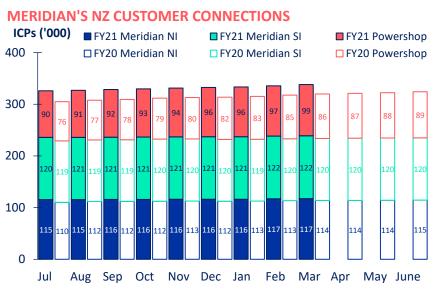

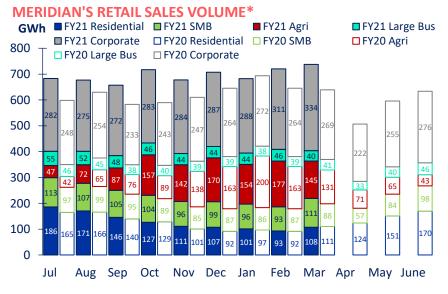

New Zealand retail

- Meridian's New Zealand customer connection numbers rose 0.7% during March 2021 and have risen 4.3% since June 2020
- Retail sales volumes in March 2021 were 15.4% higher than March 2020
- Compared to March 2020, segment sales increased in: SME +26.8%, agricultural +10.9%, corporate +23.9%. Sales were lower in residential -2.7% and large business -1.6%
- To date this financial year, retail sales volumes are 11.0% higher than the same period last year
- This reflects increased sales in all segments: residential +4.5%, small medium business +14.5%, agricultural +5.9%, large business +14.4% and corporate +14.8%

*excludes volumes sold to New Zealand Aluminium Smelters and CFDs

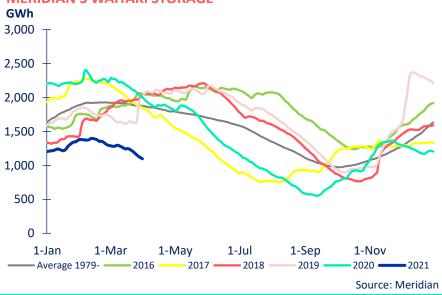

New Zealand storage

- March 2021 monthly inflows were 69% of historical average
- To date this financial year, inflows are 91% of historical average
- Meridian's Waitaki catchment water storage moved from 1,296GWh to 1,098GWh during March 2021
- Waitaki water storage at the end of March 2021 was 58% of historical average and 82% lower than the same time last year
- Water storage in Meridian's Waiau catchment was below average at the end of March 2021

MERIDIAN'S COMBINED CATCHMENT INFLOWS

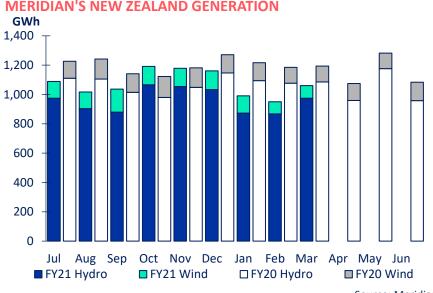

MERIDIAN'S WAITAKI STORAGE

New Zealand generation

- Meridian's New Zealand generation in March 2021 was 11.1% lower than the same month last year, reflecting lower hydro and lower wind generation
- To date this financial year, Meridian's New Zealand generation is 10.2% lower than the same period last year, reflecting lower hydro and lower wind generation
- The average price Meridian received for its generation in March 2021 was 387.0% higher than the same month last year
- The average price Meridian paid to supply customers in March 2021 was 362.8% higher than the same month last year
- To date this financial year, the average price Meridian received for its generation is 65.3% higher than the same period last year and the average price paid to supply customers is 66.9% higher

Source: Meridian

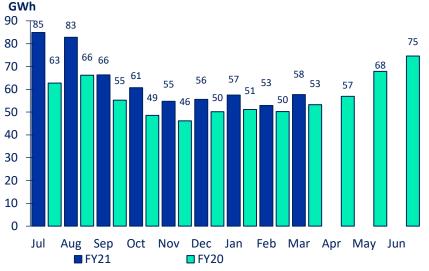

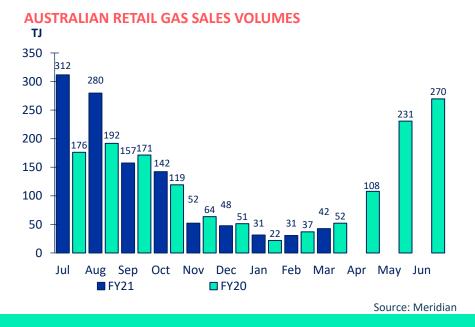

Australian retail

- Powershop Australia electricity customer connection numbers rose 0.3% during March 2021 and have risen 4.3% since June 2020
- Electricity sales volumes in March 2021 were 8.3% higher than the same month last year
- To date this financial year, electricity sales volumes are 18.5% higher than the same period last year
- Powershop Australia gas customer connection numbers rose 2.0% during March 2021 and have risen 12.8% since June 2020
- Gas sales volumes in March 2021 were 18.6% lower than the same month last year
- To date this financial year, gas sales volumes are 23.9% higher than the same period last year

Source: Meridian

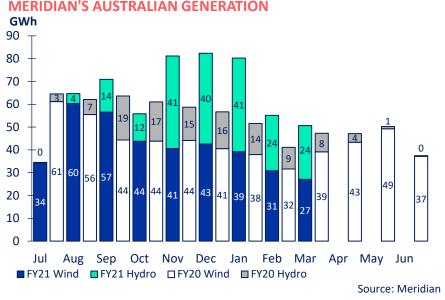

Australian generation

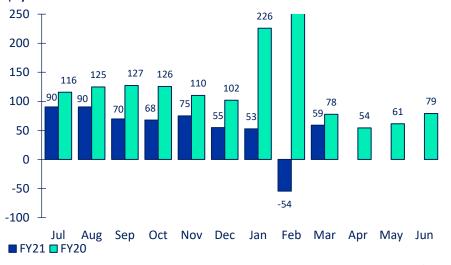

- Meridian's Australian generation in March 2021 was 7.2% higher than the same month last year, reflecting lower wind generation and higher hydro generation
- To date this financial year, Meridian's Australian generation is 13.6% higher than the same period last year, reflecting lower wind and higher hydro generation
- Storage at Meridian's Hume hydro power station decreased to 45% of capacity by mid April 2021
- NEM¹ electricity demand in March 2021 was 0.8% higher than the same month last year
- While spot prices lifted in March 2021, forward prices remain low and at similar levels to recent months

¹See glossary on page 18 for a definition of Australia's National Electricity Market ²February average generation prices include the settlement of forward sold Large Generation Certificates:

- Forward LGC sales are marked to market monthly through fair value movements
- Sales settle in February each year
- At which point fair value gains or losses on settled sales transfer to generation revenue
- With the FY21 settlement, generation revenue now includes market to market losses of A\$3M
- This compares with settlement gains of A\$12M in FY20

AVERAGE WIND GENERATION PRICE² \$A/MWh

- With the announcement of the commencement of the Harapaki wind farm build, FY21 capex is now expected to be between \$120M-\$130M (previously \$70M-\$80M)
 - \$50M to \$55M of stay in business capex
 - \$70M to \$75M of currently approved investment spend

Footnotes

- 1. Contracted sales volumes and volume weighted average price received from contracted customers less distribution costs
- 2. Derivatives sold excluding the sell-side of virtual asset swaps
- 3. Average price of both NZAS sales volume and derivative sales volumes
- 4. Meridian Retail and Powershop New Zealand installation control points (ICPs), excluding vacants
- 5. Volume weighted average price received for Meridian's physical generation
- 6. Over the counter and ASX contract volumes excluding the buy-side of virtual asset swaps
- 7. Financially responsible market participants, excluding vacants
- 8. Meter installation registration numbers
- 9. Excludes electricity metering expenses, now reclassified into gross margin

Glossary

| Hedging volumes | buy-side electricity derivatives excluding the buy-side of virtual asset swaps |
|--|---|
| Average generation price | the volume weighted average price received for Meridian's physical generation |
| Average retail contracted sales price | volume weighted average electricity price received from retail customers, less distribution costs |
| Average wholesale contracted sales price | volume weighted average electricity price received from wholesale customers (including NZAS) and financial contracts |
| Combined catchment inflows | combined water inflows into Meridian's Waitaki and Waiau hydro storage lakes |
| Cost of hedges | volume weighted average price Meridian pays for derivatives acquired |
| Cost to supply contracted sales | volume weighted average price Meridian pays to supply contracted customer sales and financial contracts |
| Contracts for Difference (CFDs) | an agreement between parties to pay the difference between the wholesale electricity price and an agreed fixed price for a specified volume of electricity. CFDs do not result in the physical supply of electricity |
| Customer connections (NZ) | number of installation control points, excluding vacants |
| FRMP | financially responsible market participant |
| GWh | gigawatt hour. Enough electricity for 125 average New Zealand households for one year |
| Historic average inflows | the historic average combined water inflows into Meridian's Waitaki and Waiau hydro storage lakes over the last 85 years |
| Historic average storage | the historic average level of storage in Meridian's Waitaki catchment since 1979 |
| HVDC | high voltage direct current link between the North and South Islands of New Zealand |
| ICP | New Zealand installation control points, excluding vacants |
| ICP switching | the number of installation control points changing retailer supplier in New Zealand, recorded in the month the switch was initiated |
| MWh | megawatt hour. Enough electricity for one average New Zealand household for 46 days |
| National demand | Electricity Authority's reconciled grid demand www.emi.ea.govt.nz |
| NEM | Australia's national energy market, comprising Queensland, New South Wales (including the Australian Capital Territory), Victoria, South Australia, and Tasmania |
| NZAS | New Zealand Aluminium Smelters Limited |
| Retail sales volumes | contract sales volumes to retail customers, including both non half hourly and half hourly metered customers |
| Financial contract sales | sell-side electricity derivatives excluding the sell-side of virtual asset swaps |
| τJ | Terajoules |
| Virtual Asset Swaps (VAS) | CFDs Meridian has with Genesis Energy and Mercury New Zealand. They do not result in the physical supply of electricity 20 APRIL 2021 MONTHLY OPERATING REPORT FOR MARCH 2021 18 |
